March 24th, 2020

Dear Client and partner,

### **COVID-19 BMP Europe company response update.**

As COVID-19 continues to impact the United Kingdom, following the latest guidance as issued by the UK Government yesterday evening, BMP Europe has taken the difficult decision to close the manufacturing facilities based in Altham Lancashire, as of 24<sup>th</sup> March.

The health and wellbeing of our employees has, and always will be, our number one priority so for this reason we have chosen to take this immediate action.

BMP Europe will continue to manufacture various critical products such as air respirators at the request of the government, as these are classed as “key supplies” required to aid the fight against COVID-19. A small warehouse team will remain operational at the facility to ensure these critical goods, along with any other goods ready to ship, can be despatched in addition to raw materials being received.

BMP Europe tentitively plan to start production once again on the 14<sup>th</sup> April, however, this is a constantly changing environment and, as such, if there are any changes to this date we will inform you.

The sales team will continue to operate as normal from home office facilities, so please feel free to contact your account manager, or myself, should you require any assistance or have any questions.

We thank you for your support at this difficult time.

Stay safe.

**Mark Booth**, MBA  
Sales and Marketing Director
